

# *In the Flow of Life: Summer Prosperity Series*

## **Course Description:**

Prosperity consciousness includes how we see our health, our finances, our peace of mind, and especially how we see the Divine, others and ourselves. This course allows learners to explore the foundations of prosperity, and how prosperity consciousness manifests in all areas of their lives. Class content is based on a non-linear review of Eric Butterworth's book *In the Flow of Life*, but class time is interactive and experiential, and all learners are welcome.
