

FAITH

We lit the 12 Power candles during our candle lighting service in December. Now, I will share the power for January, FAITH.

FAITH is the ability to believe, intuit, and perceive.

The location of FAITH in our body is the center of the brain.

The color given to FAITH is blue. Visualize the deep blue filling your head.

We can use this affirmation:

“ Faith blesses my day and paves my way. “

And now, from the Advent 2021 Unity booklet:

FAITH

Today I honor my faculty of faith. Whether it is small as a mustard seed or as large as a mountain, faith is the energy that carries me forward. It opens

my heart to knowing that I am worthy of all good things, including more love.

When events around me seem overwhelming, when worry and doubt darken the landscape of my mind. I call forth faith. In prayer, I affirm that faith that I easily draw from. Faith fills me with trust and confidence – it lightens any load.

Faith expands my awareness to recognize the presence of Spirit in every person, place, and circumstance. It reminds me to trust in my abilities and believe in myself, knowing I am ever supported by the Divine.

Faith uplifts my thoughts and words to create a brighter picture. It reminds me to be open to divine guidance, intuitive knowing, and spiritual nudges. It aids me in knowing that from a divine perspective, all is truly well.

We ought always to thank God for you, brothers and sisters, and rightly so, because your faith is growing

more and more, and the love all of you have for one another is increasing.

- 2 Thessalonians 1:3 (NIV)
