

# **Becoming a Person of Increase**

Here we are at another new beginning creating another ending.....

What will you create this year?

As Co-creators with God we have the power to meet the future by living fully in the now.

We are "Bursting into the Future."

Bursting into a freer more expansive version of life itself manifested as us.

Wallace Wattles in his book *The Science of Getting Rich* says:  
"By thought, the thing you want is brought to you,  
but by action you receive it."

Join me as we become persons of increase.
