

## June~Imagination

Two affirmations we will say together during this reading you will see on the screen.

The power for June is IMAGINATION.

IMAGINATION is the ability to conceptualize, imagine, and envision a different future.

The location of IMAGINATION in our body is between the eyes. Close your eyes for a moment and imagine that space between your eyes.

The color given to IMAGINATION is light blue. Visualize light blue filling the area between your eyes. Affirm: *I imagine good unfolding in every area of my life.*

And now, from Rev. Bronte Colbert:

I am aware of the presence of God flowing through me, energizing and renewing all areas of my life. I use my imagination, the creative power of Spirit, to think about what I wish to see in my life.

I let go of limiting thoughts and relax into the playful joy of imagination. I envision a healthy, energetic body; relationships that are loving, fun, and harmonious; success in my plans and endeavors; lavish abundance; and dreams coming true.

Fueled by the creative energy of the Divine, my imagination explores my wishes and dreams. I have fun imagining, knowing my thoughts can be brought into reality.

When I focus on life as a spiritual adventure, I can imagine gifts, opportunities, and the presence of Spirit in every event or circumstance. Grateful for my life today, I eagerly anticipate ongoing blessings in my continuing adventure of life.

And from Colossians 3:2:

Set your mind on things that are above, not on things that are on earth.

Affirm: *I create big, bold, and brilliant imaginings. My visions are lofty, and my dreams are awesome.*
