

There Is Only Love

In this moment, in this place
I remember who I am
Letting fear and worry fall away from me
I open my eyes and see

There is only love
There is only love
Love that heals
Love that sets us free
There is only love

When I lose myself
When it seems I've lost my way
When I go inside and quiet my mind
I can hear Spirit gently say ...

There is only love
There is only love
Love that heals
Love that sets us free
There is only love

And I know this voice of love
It is singing through my life
It is all I am, every part of me
It is all I choose to be ...

There is only love
There is only love
Love that heals
Love that sets us free
There is only love
